- ▶ Provides guidance for everyday neuro-ophthalmology practice
- ▶ Discusses diagnosis, treatment and rehabilitation
- ▶ Lavishly illustrated throughout

This practical guide provides a complete algorithm for diagnosis and treatment, from 'having a problem with vision', via background and diagnosis, to treatment and eventually to rehabilitation of visual loss and eye-movement disorders in the central nervous system.

Following on from introductory sections devoted to the role of neuro-ophthalmology, recent developments in the field, and an overview of neuro-ophthalmological examinations, there are sections devoted to the different parts of the visual system, and finally a section on rehabilitation. The handbook gives an overall picture for all interested in neuro-ophthalmology, borderline territories and overlaps.

Neuro-Ophthalmology is aimed at ophthalmologists, neurologists, neurosurgeons, traumatologists, neuroradiologists, experts in cardiology and stroke, and trainees in these areas. It will also be of interest to neuro-rehabilitation specialists, neuropsychologists, and those working in typhlopedagogy and health informatics.

Contents

Part I The Importance and Role of Neuro-Ophthalmology

- 1 The Importance and Role of Neuro-ophthalmology in Ophthalmological Clinical Practice** 3
Judit Somlai
- 2 The Importance of Neuro-ophthalmology in Neurology** 5
Tibor Kovács

Part II Objectives and Recent Results in the Neuro-Ophthalmological Clinical Practice

- 3 Mechanisms of Parallel Information Processing in the Visual System** 9
György Benedek
- 4 A New Direction: Neuro-endocrino-immunology** 15
Csaba Balázs
- 5 Visual and Oculomotor Disorders in Internal Diseases** 19
György Pfliegler
- 6 Genetic Aspects of Neuro-ophthalmological Diseases** 27
Mária Judit Molnár
- 7 Recent Knowledge in the Neurosurgical Practice Regarding the Visual System** 33
János Vajda
- 8 The Role of Gamma Knife Stereotactic Radiosurgery in the Treatment of Neuro-ophthalmological Diseases** 37
György T. Szeifert and Jenő Szeifert
- 9 Neurointerventional Treatment of Diseases Causing Neuro-ophthalmological Symptoms** 47
Istvan Szikora
- 10 Recent Results in Neuropathology: Demyelinating and Conformational Diseases** 59
Tibor Kovács

Part III Conventional, Novel and Complementary Examinations in Ophthalmology

Functional Tests of the Visual Pathway System

- | | | |
|---|---|-----|
| 11 | Algorithm of the Neuro-ophthalmological Examination Used in the International Practice | 67 |
| | Judit Somlai | |
| 12 | Objective and Subjective Examination Methods of Visual Acuity | 79 |
| | Márta Janáky | |
| 13 | Examination of Contrast Sensitivity | 83 |
| | Márta Janáky | |
| 14 | Examination of Color Vision | 89 |
| | Klára Aczél | |
| 15 | Electroretinography (ERG): Electrophysiological Examination of the Retina | 97 |
| | Ägnes Farkas | |
| 16 | Functional Examinations of the Visual Pathway System with Electrophysiological Methods | 111 |
| | Márta Janáky | |
| 17 | Clinical Importance of Conventional and Modern Visual Field Tests in the Topographical Diagnostics of Visual Pathway Disorders | 119 |
| | Judit Somlai | |
| 18 | The Differential Diagnosis of Visual Field Deficits at the Bedside | 133 |
| | Gyula Gács and Ildikó Szilvássy | |
| 19 | The Role of Fluorescein Angiography and Optical Coherence Tomography in the Examination of Circulatory Disorders of the Optic Disc | 145 |
| | Zsuzsa Récsán and Zsuzsa Szepessy | |
| 20 | Optical Coherence Tomography of the Optic Disc and the Macula in Neurodegenerative Diseases | 157 |
| | Gábor Márk Somfai, Erika Tátrai, and Magdolna Simó | |
| Neuro-Ophthalmological Examinations of the Eye Movements | | |
| 21 | Diagnosis, Differential Diagnosis and Treatment of Congenital Ocular Motor Disorders | 171 |
| | Anna Soproni and Patrícia Domsa | |
| 22 | Polatest Procedure | 197 |
| | Judit Pálfia and Ernő Pálfia | |

23	Physiology and Examination Methods of the Pupillomotor Pathway	207
	Bernadett Salomváry	
24	Neuro-ophthalmological Methods for the Clinical Analysis of Double Vision.	217
	Judit Somlai	
Supplementary Test Procedures		
25	Duplex Ultrasound Examination of the Carotid and Vertebral Arteries	223
	Péter Barsi	
26	Transcranial Doppler Examination.	231
	Gyula Pánczél	
27	Color Doppler Ultrasound Examination in Orbital Diseases	247
	János Németh, Zoltan Harkányi, and Zita Morvay	
28	The Role of the Ophthalmologic Ultrasound in Neuro-ophthalmology.	253
	Béla Csákány and János Németh	
29	The Role of the EMG-ENG in Diagnosing Neuro-ophthalmologic Diseases.	257
	Mária Judit Molnár	
30	Computed Tomography Examinations.	263
	József Kenéz	
31	Neuroradiology, Functional MRI	271
	György Várallyay and Lajos Rudolf Kozák	
32	Novel Information Regarding the Visual and Eye Movement Systems in Otoneurology	283
	Ágnes Szirmai	
33	Electro-Oculography (EOG) Examination of Eye Movements.	287
	Szilvia Gulyás	
34	The Importance of Familiar Thrombophilias in the Clinical Practice. Novel Ways in Anticoagulant Therapy	295
	László Nemes	
35	Novel Consideration Regarding the Role of Evoked Potential in Confirming the Diagnosis of Eye Movement Disorders of Brainstem Origin	305
	Szabolcs Tóth	

Part IV Diseases of Retina and the Optic Nerve (Visual and Sensory System)

Congenital Diseases of the Retina and the Visual Pathway

- 36 Hereditary Diseases of the Retina** 309
 Ágnes Farkas
- 37 The Roles of Electroretinography (ERG) and Visual Evoked Potential (VEP) Examinations in the Diseases of the Retina and/or the Optic Nerve** 325
 Márta Janáky
- 38 Congenital Diseases of the Optic Nerve** 333
 Márta Janáky
- 39 Phacomatoses** 339
 Judit Somlai

Acquired Diseases of the Optic Nerve

Inflammatory Diseases

- 40 Retrobulbar Optic Neuropathy: From the Neurologist's Approach** 345
 Gábor Lovas
- 41 Neuromyelitis Optica (Devic's Disease): A New Concept for an Old Disease** 351
 Zsolt Illes
- 42 Acquired Inflammatory Diseases of the Optic Nerve: From the Neuro-Ophthalmologist's Approach** 361
 Judit Somlai

Circulatory Disorders

- 43 Vascular Diseases of the Optic Nerve: Internal Medicine Aspects** 369
 György Pfliegler
- 44 The Cardiovascular Background of 'Intracerebral Small Vessel Disease'** 377
 Éva Nieszner
- 45 Vascular Diseases of the Optic Nerve: The Neuro-Ophthalmologist's Approach** 383
 Judit Somlai

Compressive Optic Neuropathy

- 46 Diseases Causing Compression of the Optic Nerve: The Neurosurgeon's Perspective** 401
 János Vajda
- 47 Neuro-Ophthalmological Aspects of Tumors Causing Compression of the Visual Pathway System** 407
 Bernadett Salomváry

Traumatic Optic Neuropathy

- 48 The Significance of Neuro-ophthalmology
in the Diagnosis and Therapy of Cranial Trauma** 421
György T. Szeifert and Judit Somlai

Toxic and Deficiency Optic Neuropathy

- 49 Toxic and Deficiency Optic Neuropathy** 433
Vera Klein

Eye Related Symptoms and Signs of Intracranial Hypertension

- 50 Ocular Symptoms and Signs of Intracranial
Hypertension** 437
Judit Somlai
- 51 Big Blind Spot Syndrome (Papillophlebitis)** 453
Gyula Gács and Ildikó Szilvássy

Part V Neuro-Ophthalmologic Aspects of the Ocular Motor System**Disorders of the Pupillomotor Pathway**

- 52 The Most Important Disorders of the Pupillomotor
Pathway in the Clinical Practice** 463
Judit Somlai

Infranuclear and Nuclear Neurogenic Paresis

- 53 Congenital Eye Movement Disorders** 471
Andrea Deák
- 54 The Most Important Clinical Syndromes of Acquired
Nuclear and Infranuclear Eye Movement Disorders,
and Their Diagnostic and Therapeutic Options.** 483
Judit Somlai

Neurogenic Paresis Due Too Dysfunction of the Brainstem

- 55 Eye Movement Disorders Related to Brainstem
Dysfunctions -Types, Clinical Significance of Vertical
Localization, Modern Therapeutic Principles** 493
Judit Somlai
- 56 The Clinical Significance of Otoneurology
in the Diagnosis of Brainstem Disorders.** 507
Ágnes Szirmai
- 57 Examination of the Eye Movements of the Patient
in Coma** 513
György Geréby

Supranuclear Eye Movement Systems and Their Clinical Significance

- 58 Supranuclear Regulation of the Eye Movements and the Significance of Their Disturbances** 523
Szilvia Gulyás

Disorders of the Neuromuscular Junction (MG and OMG), Non-isoéated Ocular Muscle Paresis and Myogenic Paresis

- 59 Disorders of the Neuromuscular Junction and Their Diagnostics** 535
László Sándor Fornádi
- 60 The Ocular Characteristics and Differential Diagnostics of Mixed Types Eye Movement Disorders (Disorders of Ocular Neuromuscular Junction (OMG), Non Isolated Ocular Muscle Paresis and Myogenic Paresis)** 545
Judit Somlai
- 61 Endocrine Myopathy and Orbitopathy** 561
Csaba Balázs

Part VI Diseases of the Orbit

- 62 Diagnostics and Therapy of Diseases of the Orbit** 573
Katalin Korányi
- 63 Traumatic Injuries of the Orbit** 593
György Pulay

Part VII Neuro-Ophthalmological Considerations of the Facial Nerve

- 64 Tumor Lesions of the Facial Nerve** 637
Ildikó Gábor

Part VIII The Neuro-Ophthalmological Aspects of Headaches

- 65 Neuro-Ophthalmological Aspects of Headaches from the Neurologist's Aspect** 647
Csaba Ertsey

Part IX Rehabilitation

- 66 Viewing Down from the Top: Visual Impairments Developing as a Consequence of Cortical Injury** 663
Anna Verseghe and Zita Snagy Nagy
- 67 Ignored World Without Missing It Neglect** 677
Anna Verseghe and Zita Snagy Nagy

68	Introducing Tools and Services Helping Life of People with Impaired Vision	689
	Mihaly Szuhaj and Peter Szatmari	
69	Elementary and Occupational Rehabilitation of People with Impaired Vision	705
	Marta Tolnayne Csattos and Laszlo Joszt	
70	The Importance of Rehabilitation and the Options of a Neuro-ophthalmologist	715
	Judit Somlai	
	Appendix: Colour Scheme of the Book Content	719
	Index	000
